

# Ph.D. / M.Sc. Openings of Fall 2020

(Positions will not be available once filled)

A few Ph.D. and M.Sc. positions are available at the **SAINT (Securing Artificial Intelligence and InterNet of Things) Lab**, Department of Computer Science, Missouri University of Science and Technology.

We are looking for highly-motivated students to conduct cutting-edge research in the area of **Security for Internet of Things and Machine Learning**. Candidates are expected to have:

- A decent bachelor's or master's degree in computer science, electrical engineering, information engineering, or other related disciplines;
- Good mathematical skills;
- Competency in at least one modern programming language;
- Competency in English (reading, writing, speaking);
- Good analytical and critical thinking ability.

Candidates who have additional qualities, such as sound knowledge of computer and wireless networks, commercial or open-source big data analytics platforms, active participation in open-source machine learning or IoT projects, are more advantageous and are strongly encouraged to apply.

**Application deadline:** As soon as vacancy is filled (but no later than 30 June)

**To apply, email CV and supporting documents to Associate Professor Tony T. Luo:** [tluo@mst.edu](mailto:tluo@mst.edu) | <https://tluocs.github.io>

Formal admission process will follow if candidate is shortlisted.

## Appendix - Financial support:

- For PhD candidates only:
  - Tuition: 100% covered
  - Stipend: 2100-2500 USD/mo (Note: living expenses are very low)
- For both MSc and PhD candidates:
  - University funding opportunities: <https://grad.mst.edu/future-students/funding/>
  - Department Scholarships and Fellowships: <https://cs.mst.edu/studentopportunities/scholarships/>
